PROFESSIONAL SUMMARY

Results-driven Mechanical Engineering graduate and entrepreneur with over two years of hands-on experience taking projects from initiation to delivery across engineering, technology, and business functions. Foundation in mechanical engineering evolved into a passion for building ventures that bridge technology and real-world impact combining a business-analyst mindset, strong stakeholder and investor relations, and end-to-end project ownership with a technology-forward, AI-driven curiosity that keeps solutions commercially viable and ahead of the curve. Proven track record of securing funding, managing client relationships from onboarding through delivery, and leading cross-functional teams to measurable operational and commercial results. Brings an entrepreneurial mindset, adaptability, and a commitment to excellence to every team, with a vision to help organizations grow strategically through technology-led execution.

CORE SKILLS

Project & Operations Management: Project Lifecycle Management (Initiation to Delivery), Work-Package Ownership, Resource & Schedule Planning, Risk Management, Requirements Gathering, UAT, Process Coordination, Root-Cause Problem Solving, On-Time Delivery

Business Analysis & Stakeholder Management: Requirements Analysis, Stakeholder & Investor Relations, Client Onboarding, Cross-Functional Team Leadership, Vendor & Supplier Coordination, Business Development, Fundraising & Pitching, Data-Driven Decision Making

Methodologies: Agile, Scrum, Sprint Planning, Backlog Management, Iterative Delivery

Engineering & Technical: Mechanical Design, CAD Modeling (SolidWorks, AutoCAD), Vehicle Dynamics Analysis, Structural Component Fabrication, IoT Systems Integration, Industrial Sensors (RS-485/Modbus), Product Development, Thermal Engineering

Tools & Platforms: MS Excel, ClickUp, Notion, Slack, GitHub, Miro, SolidWorks, AutoCAD

Additional: AI & Prompt Engineering

Languages: Bangla (Native), English (Advanced)

PROFESSIONAL EXPERIENCE

Co-Founder & Chief Operating Officer (COO)

Nov 2023 – Present

Agritech / IoT Hardware-Software Startup | Rajshahi, Bangladesh

- Lead investor engagement and stakeholder relations across government agencies, research institutions, and technical partners presenting business plans and pitching for funding and partnership opportunities.
- Secured BDT 350,000+ in cumulative pre-seed funding and grants including a World Bank-backed award (UIHP IC3) and national competition prizes by winning structured investor pitches and funding competitions.
- Generated commercial revenue by directing 20+ pilot tests, validating products for market release, and closing sales for 3 deployed units, including a live installation at the Bangladesh Agricultural Research Institute (BARI).
- Own the full product and project lifecycle of two IoT hardware-software systems from scope definition, team hiring, and sprint planning through pilot deployment, production rollout, and commercial sales.
- Lead a 11-member cross-functional team (embedded/IoT engineers, software developers, business analysts) using Agile principles; assign tasks and track milestone delivery on a weekly cadence.
- Own technical architecture decisions for ESP32- and SIM7600-based IoT systems integrating AI, cloud computing, and 4G communication for real-time remote monitoring and control.

Project Management Intern

Dec 2025 – Present

Oleyn AI Singapore-based AI Automation Company | Remote

- Own end-to-end client onboarding from discovery calls and requirements scoping to solution setup, implementation, and structured handover to the technical delivery team ensuring a smooth transition from sales to service.
- Manage client relationships and stakeholder communication across international and local accounts; convert qualified leads into onboarded clients and maintain ongoing relationships to protect satisfaction and retention.
- Act as the coordination point between business and technical stakeholders for AI automation and SaaS solution delivery, clarifying ownership and closing action items across teams.
- Lead and manage the Future Leaders Programme, training and overseeing a 30+ member student team assigning responsibilities, coaching on client communication, and monitoring performance.
- Drive client acquisition and outreach across international markets, maintaining consistent follow-up discipline to support onboarding and long-term client success.

Founder & Project Manager

2025 – Present

Digital Crafted Independent Digital Solutions Agency | Remote / Global

- Manage the full project delivery pipeline client briefing, scope definition, task assignment, quality review, and on-time delivery for 12+ international clients across Europe, the Middle East, and Bangladesh.
- Coordinate distributed teams of developers, video editors, and designers via Slack and ClickUp to maintain consistent quality and schedule adherence across concurrent projects.

ENGINEERING PROJECTS & TECHNICAL LEADERSHIP

Mechanical Design Engineer Team Crack Platoon

May 2023 – Feb 2025

Bangladesh's First Formula SAE Team | RUET, Rajshahi

- Contributed to the design and fabrication of a competitive Formula Student race car, owning mechanical design tasks including CAD modeling, vehicle dynamics analysis, and structural component fabrication.
- Collaborated with a multidisciplinary engineering team to develop and test vehicle components, representing Bangladesh at Formula Bharat 2024 (India).

Event Management Secretary SCADR, RUET

Mar 2022 – 2026

Society of Computer Aided Designers (SCADR), RUET | Rajshahi, Bangladesh

- Planned, coordinated, and executed engineering events and workshops, developing organizational and stakeholder-management discipline.
- Managed logistics, scheduling, and inter-team communication for a national competition drawing 380+ participants from 18 universities.
- Organized and hosted 3 technical seminars (including 3D Printing and Introduction to Design Engineering) reaching 500+ combined attendees.

EDUCATION

B.Sc. in Mechanical Engineering

Mar 2022 – Aug 2026

Rajshahi University of Engineering & Technology (RUET), Rajshahi, Bangladesh | CGPA: 3.32/4.00

- Relevant Coursework: Mechanical Design, Thermal Engineering, Vehicle Dynamics, IoT in Engineering.

Higher Secondary Certificate (HSC)

2018 – 2020

Rangpur Government College | GPA: 5.00

AWARDS & ACHIEVEMENTS

- Champion Startup Summit, RCF Tech Fest 2026 (National, RUET)
- Champion UIHP RUET IC3, World Bank & ICT Ministry BDT 80,000 pre-seed funding (2024)
- Champion Agri-Mechanization Idea Competition, RUET / BARI (2025)
- 1st Runner-Up Youth Startup Summit 2025 (BDT 200,000 prize)
- 2nd Runner-Up National Agri-Mechanization Competition, BARI BDT 20,000 funding (45 teams, 2025)
- Presenter Investment Summit 2025, InterContinental Dhaka (2,300+ global investors)
- 1st Runner-Up Astro Science Fair, Rajshahi Regional (2024)
